## Looking Over

Nothing Phony About It

THERE was a lot of Edmonton hockey fans not present at last night's game, but it is clearly stated that Edmonton got a lot of the better of the boys. I mean that the Flyers beat the Stampeders.

Calgary Stampeders were not off from last night. The Flyers beat them the hard way as the game indicated by the score. Furthermore, don't harbor any crazy idea that the Stampeders were not trying their darnedest. Even in playoff hockey, I have never seen any club put on a more determined drive to come from behind than the Calgarys did last night.

Before I settle down to get enthusiastic about the Flyers, honestly admitting that I'll be clearly stated that Edmonton got a lot of the better of the boys. I mean that the Flyers beat the Stampeders.

The amazing thing about the game was that the Flyers won without the services of Eddie O'Keefe and Bobby Crossland, regular centre ice men. Both came down with this yesterday. You'd think that the loss of both regular centres just before the game would settle any club playing such a powerful outfit as the Stampeders, but the Flyers showed the handiness by the final display of hard work you could ever ask to see. The boys backchecked nicely and the defense shaped up like something were going to be pointing in with pride before long.

But out of the game one fact stands out like a horse at an auction show—Joe Brown's place is at centre ice and not on a wing. Joe played his old position of centre last night, the spot he played during his years in the English League, and he scored both goals. Furthermore, he carried wingers Skinner and Bird along with him splendidly.

The next important fact is that the defense has apparently been paired right—Mullen with McIntyre and Gordon with Sherritt. All four of these youngsters turned in a while of a game, although Mullen and McIntyre were the more effective pair. President Sir Stuart did a fine day's work when he signed Patrick Riley Mullen to a Flyers contract. He's the best blue line guard that I've seen in the league so far this season. The others may come along, but Mullen has already arrived.

☆☆☆☆

### Davie Pow Earned Shutout

EVER a goalie earned a shutout, Davie Pow did it last night. For 30 minutes and seven seconds he turned aside every shot the desperate Calgarys fired at him. He was getting fine protection all the time, but just the same he saved at least half a dozen times when everyone in the rink thought the Stampeders were sure to score.

Then, with less than a minute left, Desmarais had to go and spoil it all by binging in that pesky Calgary corner. Frankly I am disappointed in Desmarais. That goal didn't do Stampeders a bit of good. It was nothing but outright robbery, but from that way Tony rifled in. In good time he really believed it might help. There ought to be laws against that sort of thing.

A lot of fans have been anxious to see Dittus and Ab Newcome, ex-juniors from the Maple Leafs, perform in senior company. The boys made a fine showing with Newcome and Dittus and Yarns on the wings. However, there is a lot of difference between senior and junior calibre. Those youngsters are a mighty valuable asset to the Flyers and they'll probably turn in the mile of more than one game this season, but they are not ready yet to slip in senior company.

## Three Clubs Approve Bears in Central Loop

THE University of Alberta's Golden Bears hockey club will soon be seeing action in the Central Alberta Hockey League if final arrangements for the Bears' entry into the loop can be completed before the holiday schedule is drawn up.

The college club through Manager Jack Walker and President George Stuart, earlier this week made application for participation in the popular central intercollegiate league and so far have received the approval of the University of Alberta, the University of Saskatchewan and the University of Regina. The Bears will play their first game on Nov. 22, at the University of Alberta. The Bears will play their first game on Nov. 22, at the University of Alberta.

Only clubs that have not yet qualified their word of accepting the Bears' entry are the University of Alberta, the University of Saskatchewan and the University of Regina.

Last year the U. of A. squad competed in the Edmonton tournament.

## Crippled Flyers Beat Calgary 2-1 to Tie Up League

### BOMBERS DRILL STILL HOPEING TO PLAY FINAL

### Brown Scores Both; O'Keefe, Crossland Off

By JACK KELLY  
Edmonton Bulletin Sports Editor

WINNIPEG, Nov. 21.—(CP)—Winnipeg power-laden Bombers Wednesday continued prepping for a football game which may never come. Bombers resumed drills this week.

The Blue and Gold warriors are held under these regulations because of the east-west game sponsored by the Sport Service League of Ontario takes place in Toronto December 7 it will be played under rules of the professional body.

Manager Joe Ryan of Bombers reports that all his players are in good shape, free from injury. Ryan said Wednesday he still had to re-evaluate his team before he could decide the east-west game is definitely "on".

The Bomber manager said no arrangements had been made for an exhibition game here to help the Winnipeg team on edge. He added, however, that if the squad goes west, it will be a "must-win" contest with an eastern club prior to battle with the eastern champion.

In any event, Bombers would not trade a play made by a westbound flight date because of weather might interfere with outdoor practice here.

PLAYING without centres Eddie O'Keefe and Bobby Crossland, both of whom were in the Edmonton Flyers started a thrilling, almost miraculous battle to beat the mighty Calgary Stampeders 2-1 here last night in an Alberta Senior Hockey League fixture that kept some 2,500 fans cheering with a fervor that the old Arena has seldom heard.

As a result of this victory and Lethbridge's 5-4 win over Turner Valley Oilers at the same time, all four clubs are now tied for first place in the Alberta League standings.

Last night's game was one of those unbelievable things that the fans will be talking about for a long time to come. When it was found that O'Keefe and Crossland would be unable to play, even Flyer officials gave up hopes of a win—but the players didn't. Every man in uniform went out determined to keep punching with everything he had. Every player turned in a stellar performance, but it was Joe Brown who belted in both Edmonton goals, the first alone and the second as a play made by a wing.

As a result of the team showing that it was a "T" team, the Oilers on Saturday, the majority of the fans last night were either highly critical or definitely hostile toward the Flyers as play started, but after the first half of the game was over they were yelling their wives home for the boys.

Joe Brown centered the starting line with Les Bird and Dickey Skinner on his wings. Ab Newcome was the pivot of the other line, with Joe Dittus and Pete Yarns for wings. Bob Hasky filled in as utility man. Walter McIntyre and Riley McIntyre, both of whom were in the Oilers on Saturday, the majority of the fans last night were either highly critical or definitely hostile toward the Flyers as play started, but after the first half of the game was over they were yelling their wives home for the boys.

## SALE OF BEES STILL COOKING ALONG QUIETLY

By JUDSON BAILEY

NEW YORK, Nov. 21.—(AP)—Everybody is keeping quiet, but the sale of Boston Bees may be accomplished before the major league meetings three weeks away. . . . The players will be the person whose names have been given publicity in that connection, but Bob Quinn is going to remain at the helm and may even be the organizer of the syndicate.

There was a story around town yesterday that Brooklyn Dodgers were about to be sold, but it turned out to be a press agent stunt on behalf of a stage and radio entrepreneur.

Russell (Lena) Blackburn, coach of Philadelphia Athletics, will be the next manager of Toronto International League club. . . . he's a "good" former player of the league and old Connie Mack, his present boss, has the naming of the Toronto Kippers.

Larry MacPhail can't understand how other clubs besides Brooklyn don't put their players through a new season physical check-up. . . . of a discovery in Toronto International League club. . . . he's a "good" former player of the league and old Connie Mack, his present boss, has the naming of the Toronto Kippers.

## By Robt. Ripley Culley Leads Leafs' Attack With Four Goals

CALGARY, Nov. 21.—(CP)—Paced by Don Culley, who totalled five points, made up of four goals and one assist, Lethbridge Maple Leafs defeated Turner Valley Oilers 5-4 in an Alberta Senior Hockey League game before 1,800 fans here Wednesday night.

It was Maple Leafs' first victory of the 1940-41 season and with Flyers defeating Stampede 2-1 at Edmonton, all four clubs are tied with one victory and one loss each.

Lethbridge downed their opponents for their played smaller and more aggressive hockey than the Oilers who were outplayed 2-1 by Stampede in the first period. McInnes injured a knee and Kevin hurt his leg.

Alex, Kallia scored the other Lethbridge goal, while Rudy Kallia scored two goals for Stampede. McInnes and Kevin scored two goals each for the Oilers.

Quinnigan improved from over that shown last Saturday when they were outplayed 2-1 by Stampede. The Leafs dominated play throughout.

The Oilers' defense was shaky in their opening and allowed superior combinations. While the Oilers' defense was shaky in their opening and allowed superior combinations.

## There's Happy Family In Evansburg District

Out Evansburg way there is an extremely happy family, and that happens here contributed by generous people in Edmonton.

Recently The Bulletin made an appeal for clothing, bedding, beds, and other articles of furniture to help this family. The mother was in hospital and kindly neighbors who valued the home to give assistance to the eight children of the family, discovered their desperate plight.

There were no beds in the house, no tables and only homemade chairs. The family were sleeping on beds made from tree boughs on which were spread straw filled with straw.

The case was referred to the Edmonton Emergency Welfare Bureau

and an appeal was launched through The Bulletin.

Monday, through the generosity of Jack McNeill, a Winnipeg cobbler, a bed, a table, and a large quantity of clothing, bedding, and other articles of furniture were taken to the Evansburg home. Every article had been donated by generous Edmontonians.

Mr. F. K. Hart, president of the Bureau, stated Thursday that the joy of the children when they were unloaded a newly complete line of household furniture and accessories was beyond description. Unfortunately, Mrs. Hart, the mother, was unable to share in her children's joy. She is still confined to an Edmonton hospital. She expressed her heartfelt thanks to all the generous donors when told of the transformation wrought in her home by the generosity of Edmontonians.

## PRODUCERS TO BE GIVEN SAY IN EGG TRADE

### Will Vote Next Week On Marketing Proposal For Province

The proposed egg marketing plan, on which producers throughout the province will vote next week, will give producers a say in the handling and marketing of their product, it was stated Wednesday night by K. W. Kapler, minister of trade and industry, and C. W. Trevel, Alberta provincial commissioner, spoke on the plan.

Mr. Manning stated that Alberta poultrymen and farmers had been under a handicap in the egg market owing to unsatisfactory methods and overlapping in egg grading regulations and marketing.

Under this plan, a board would be set up, composed of a majority of producers, to regulate marketing and grading.

Consumers and producers alike had complained of the egg market spread between prices paid by the consumers and prices received by producers. Orderly marketing through a board would control this, Mr. Manning said.

To supply the demand in Great Britain, large supplies of surplus eggs would have to be sent to central shipping points and delivery of definite amounts must be guaranteed weeks in advance, the minister said.

PLAN ENDORSED

Mr. Kapler stated every agricultural organization had endorsed the plan but a plebiscite would be held to give individual producers an expression of opinion.

Representing poultrymen from various parts of the province, Thursday were continuing a conference at the legislative buildings, studying the plan to explain it to producers.

## \$6,000,000 SPENT HERE BY TOURISTS

### Increase Expected, A.M.A. Told—Godson Heads Motor Group

Tourists who visited Alberta during the past year spent \$6,000,000, an increase of \$2,000,000 over the figure for the preceding year, Dr. E. C. Campbell, president of the Automobile Motor Association (A.M.A.), announced at the annual meeting of the Edmonton branch of the Alberta Motor Association at the Macdonald Hotel.

Approximately 10 persons attended the meeting.

Mr. Campbell said it was planned to spend \$3,000,000 on tourist publicity during the coming year in an attempt to double the volume of tourist trade.

Charles Law, studying financial reports at the Legislative building, Grace Davidson leaving the House, Dr. J. A. Campbell, president of the Automobile Motor Association, Dr. J. A. Campbell, president of the Automobile Motor Association, Dr. J. A. Campbell, president of the Automobile Motor Association.

## \$6,000,000 SPENT HERE BY TOURISTS

### Increase Expected, A.M.A. Told—Godson Heads Motor Group

Tourists who visited Alberta during the past year spent \$6,000,000, an increase of \$2,000,000 over the figure for the preceding year, Dr. E. C. Campbell, president of the Automobile Motor Association (A.M.A.), announced at the annual meeting of the Edmonton branch of the Alberta Motor Association at the Macdonald Hotel.

Approximately 10 persons attended the meeting.

Mr. Campbell said it was planned to spend \$3,000,000 on tourist publicity during the coming year in an attempt to double the volume of tourist trade.

## Industrial Program For War Equipment Is Near Completion

OTTAWA, Nov. 21.—(CP)—Completion in eight months of the present industrialization program will see Canada's productive capacity at its "practical limit," Supply Minister Howe said in the Commons Wednesday.

"The next eight months will be a testing time for the morale of the Canadian people," he said. "At the end of that period Canada will be producing the practical maximum of war materials of which the Dominion is capable."

Speaking in the Throne Speech debate Mr. Howe gave a detailed picture of the work being done in the department of munitions and supply.

Describing expenditures of \$20,000,000 in government capital expenditures on plant and of \$80,000,000 and war orders, the minister said margins of profit had been held at levels much lower than in peace time.

**"NO NEW MILLIONAIRES"**  
"I feel confident that there will be no new millionaires emerging from this war," he said.

Following are some of the outstanding announcements in the minister's speech:

Contracts are being let for 18 "large merchant vessels" for British governments' account. To be built in St. Lawrence River and Pacific coast yards.

New models of vehicles, radios and many household appliances have been produced at a cost of conserving machine tool facilities.

Canada shortly will be making "practically every type of gun used in the present war."

Deliveries of clothing and personal equipment now are ample to meet needs of the armed forces.

**TANK PRODUCTION**

"Substantial" tank output will start early in 1941, except for engines which must be imported.

Construction of aircraft engines is dependent upon obtaining machine tools from the United States.

Shell production is being increased to 2,000,000 a month.

Tires for motor equipment will be made in Canada.

produced in Canada at a rate of 2,000 a day, with tubes.

The minister's speech was the feature of yesterday's short sitting of the house.

Mr. Howe said at the beginning of his speech that a recent cable from the Dominion office in London "advises the importance of carefully gauging production figures for munitions and supplies."

That placed him under a handicap, he said, but "we must appreciate that anything said here will represent an official report to enemy countries and for that reason definite production statements are unwise."

A much more detailed statement "can and will be forthcoming," Mr. Howe said, should it be decided to hold a secret session of the House.

**MIDDLE WORK**

Howe reported that seven-eighths of the construction work on 100 aerodromes required for the British Commonwealth Air Training Plan would be completed by the end of the year, under the accelerated schedule.

This involved, among other things, movement of 20,000,000 yards of earth and construction of about 170 miles of hard-surfaced runways.

Of 40 million projects undertaken, 29 are completed and the rest will be completed by March 31. Of 21 naval projects undertaken, 18 have been completed and the rest will be completed by March 31.

The construction division was also supervising 11 plant extensions and about construction aggregating \$80,000.

The aircraft industry in Canada, the minister continued, now is in the process of being reorganized into a production line.

Canada is building complete airplanes, except for engines, covering practically every type of training.

Two special types of heavy service tanks were produced in Canada at a cost of 2,000 a day when the industry was looked up to produce such tanks and tubes.

"Arrangements have been made to start production on the new Anglo-American tank in the early months of 1941," he said.

Production of universal carriers will begin before the end of this month.

**SHELL PRODUCTION**

The minister and eight tanks were produced in Canada at a cost of 2,000 a day when the industry was looked up to produce such tanks and tubes.

"Arrangements have been made to start production on the new Anglo-American tank in the early months of 1941," he said.

Production of universal carriers will begin before the end of this month.

De Gaulle's Forces Capture Libreville

French troops at the African equatorial port of Libreville were reported to have surrendered to Free French forces after a bitter battle for the town, capital of French Gabon. Free Frenchmen had occupied Libreville a few days earlier.

plane and several types of operational planes.

Airplane engine production had not been undertaken because of the enormous capital expenditure necessary, and the fact production could not be obtained in less than two months.

"Whether we now can undertake to build airplanes in Canada will depend on whether the necessary machine tools can be made available in the United States," he said.

Some 1,000 men were engaged in the shipbuilding program, directly and indirectly. The large shipbuilding program was being laid out in 16 yards on the east and west coasts, the St. Lawrence and the Great Lakes, the smaller ship program in 25 smaller yards.

In the mechanization of the army Canada was fortunate in having a well organized and efficient automotive industry. Ships were being laid out in 16 yards on the east and west coasts, the St. Lawrence and the Great Lakes, the smaller ship program in 25 smaller yards.

Some 1,000 military units have been delivered and orders now on hand from the industry at capacity until the end of September, 1941.

## B. C. SUDETENS EAGER TO HELP IN WAR EFFORT

VICTORIA, Nov. 21.—(CP)—German Sudetenlanders who settled in British Columbia's northern Peace River country after the Nazis took over their homeland, have offered their services in Canada in the war, Glen R. Warden (Lib. Peace River), told the British Columbia legislature Wednesday.

The Peace River member said that the Sudeten settlers who settled in the Peace River country after the Nazis took over their homeland, have offered their services in Canada in the war, Glen R. Warden (Lib. Peace River), told the British Columbia legislature Wednesday.

Mr. Warden said that the Sudeten settlers were filling in well with the country. They raised 60,000 bushels of grain this year and expected to have between 4,000 and 5,000 acres under cultivation next year. During a recent harvest shortage in the district, they pitched in and helped, he said.

## Committee Will Study Problem Of Wheat Production

WINNIPEG, Nov. 21.—(CP)—The advisory committee of the Canadian wheat board has appointed a sub-committee from its own membership to study problems expected to concern wheat production in 1941. C. C. McKenzie, president, has named chairman of the sub-committee.

Various plans which might be applied to meet the situation of growers and other problems will be studied by the committee under Mr. McKenzie.

## Argentine Wheat

BUENOS AIRES, Nov. 21.—(AP)—Argentina Wednesday decreed minimum prices for wheat and limited, effective immediately, and authorized the official grain board to buy grain from producers beginning Dec. 1 as a means of offsetting a drop in prices expected when the new bumper wheat crop begins to reach the market in December.

"I turn around 'Ghosts what I won at the bridge party?'"

Then there are special letters—such as invitations, notes of sympathy, letters of application.

By following the sample letters given in our 32-page booklet, "Good Letter-Writing Made Easy," you can write any letter you need to write.

Send like in order for your copy of "Good Letter-Writing Made Easy" to The Edmonton Bulletin, Home Service, 60 Front Street West, Toronto, Ontario. Be sure to write plainly your name, address, and name of booklet.

Please allow a week or ten days for delivery.

## What To Do

How should I address an announcement that I want to send to my whole family? I want to send it to the mother and the married daughter and her husband. I want to send it to the mother of the daughter and her husband.

Answer—Never lump the whole family together! You would address an announcement to the mother and another to the married daughter and her husband. And if the married daughter has grown children they should each get separate announcements. It is permissible to Mr. and Mrs. Wakefield.

address brothers together or sisters together—as the Moors Wakefield; the Misses Wakefield. Each announcement should be included in a separate envelope, but if they all live together at one address, these envelopes may be included in a larger one addressed to the parents. The envelope to Mr. and Mrs. Wakefield is never covered. The envelope to Mr. and Mrs. Wakefield should be addressed to Mr. and Mrs. Wakefield.

## ICY HIGHWAY IS REASON OF FATAL MISHAP

No One To Blame For the Death Of Mrs. Neas Jury Finds

Key condition of the highway was blamed for the fatal accident near Edmonton on November 13 last, when Mrs. Edward Neas, 46, died after falling from a car in which she was a passenger, killed by a truck on the icy highway and that the death was entirely accidental due to the icy condition of the roadway.

Story of the accident was told to the jury by the driver of the three wheeled car involved, John Wallace, Edmonton, driver of a southbound transport truck belonging to Macdonald Consolidated Ltd. Axel Anderson, driver of a northbound Dodge Carriage Co. truck, and David Jeffery, in charge of the car moving toward Edmonton, when Mrs. Neas was a passenger.

Witnesses heard Corp. James Macdonald, C.M.P., highway patrol officer, conducted the examination of witnesses and also described measurements and sketches of the accident scene.

Wallace, driver of the Macdonald Consolidated truck, said he was driving to Camrose and was about a mile south of Edmonton when the accident occurred.

He told the jury he saw a team and wagon coming and a large truck behind the team. Then he saw a car pull out from behind the truck. In the middle of the highway, he assumed that the driver of the car then saw the team and applied his brakes for the car to stop.

Wallace, driver of the Macdonald Consolidated truck, said he was driving to Camrose and was about a mile south of Edmonton when the accident occurred.

## Thieves Enter City Premises: No Cash Taken

Thieves who broke into the premises of Standard Records Ltd., 1047 115 street, late Wednesday, stole a Ford V-8 1938 model car, from a garage at the rear of the building and departed without leaving the car.

The stolen car, painted a light color, carries Alberta license plates number 30-922.

The car was the property of H. L. Webb.

Entering the building from the rear door the thief or thieves entered contents of drawers and filing cabinets on the first floor but did not find any money.

While driving the stolen car out of the garage at the rear the thief damaged a gas pump and gas stove. Police are investigating.

## NITON MAN IS INJURED WHEN CAR OVERTURNS

Suffering from a severe neck injury as a result of the car overturning on the highway near St. Albert, a man was taken to the hospital of Edmonton, in the town of St. Albert, late Wednesday, after a car overturned on the highway near St. Albert.

The injured man is a resident of the late Capt. J. Robinson, 37, of St. Albert, is being treated in the hospital.

Mr. Robinson was driving from St. Albert when his car overturned on the highway and turned over in the ditch. The injured man was taken to the hospital by his brother, W. Robinson, of Edmonton.

He said the injured man is making fair progress toward recovery.

## DEMOCRACY IS DEBATE THEME AT "U" FORUM

Student Orators Heard In First Open Meeting Of Season

Student orators at the University of Alberta expressed their views on "Resolved that the present political democracy contains the germ of its own destruction" at the first open forum meeting of the season staged under the joint sponsorship of the Debating Public Speaking and Debating Societies, Wednesday night.

Laurel LaRue was chairman of the meeting which was held in room 118 of the University Medical Building.

Comparing democracy to a human being, J. T. Burger, first year law student, said the affirmative argument by stating that "both have their diseases, many of which are incurable. Putting out the light of the people of the people are 50 years behind the times." Mr. Burger went on to say that representatives of the people do not represent either the people or their opinions. "Democracy is doomed unless the evil is removed," the speaker concluded.

UPWARD TENDENCY  
Eric Gombosi, geology student, said the negative side with the same comparison between democracy and human beings, but pointed out that democracy is a system of government that is not perfect. He said that the system is not perfect because it is not perfect.

He said that the system is not perfect because it is not perfect.

He said that the system is not perfect because it is not perfect.

## Local Branch Of Film Society To Meet On Monday

First meeting of the Edmonton branch of the National Film Society of Canada will be held Monday at 8:15 in room 118 of the University Medical Building.

The program for the evening includes a feature film, "The Night of the Hunter," starring Charles Boyer and Danielle Darrieux, will be shown.

Because of the recent change in the French situation, the film "The Night of the Hunter" will be shown in French.

A special membership fee is in effect for the evening. The fee is \$2.00 for members and \$3.00 for non-members.

Mr. Michael, a provincial government employee, recently offered his services to the film society. He said that he would be happy to help in any way possible.
